NOTICE.

THE SECOND VOLUME OF BOX'S EX-
CHANGE TABLES with Rates in
1/16ths from 1/10 to 1/16 down to 1/164, is now
on Sale at THE "HONGKONG TELEGRAPH"
OFFICE. These Tables, which run in columns
of 100, from 1999 down to 1, and from 1911
down to 1 or from 1999 down to 1 cent, enable
the user to arrive at the value in Dollars of
any sum in Sterling under £1,000 by simply
adding the equivalent of the Shillings and
Pence to that of the Pounds; or to get the value
in Sterling of any Sum of Dollars and Cents
under \$1,000 by adding the equivalent of the
Cents to that of the Dollars. By these simple
means of computation a very considerable saving
of time and trouble, besides securing a ready
means of proving accuracy is secured, as is
illustrated in the following examples. To
reduce £879.17.11 into Dollars at Exchange
1/10 1/16

£879. 0. 0. = \$9,561.926
17. 11. = 9.745

whereas with the other exchange books the
process would be as follows:—
£800. 0. 0. = \$8,702.550
70. 0. 0. = 761.473
9. 0. 0. = 97.904
17. 0. 0. = 9.247
11. = 0.497

or to convert the dollars into sterling at the
same rate of exchange:—
\$9,000.000 = £827. 6. 10. 8
571.000 = 52. 9. 11
671 = 1. 2. 13

but by other books it would be:—
\$9,000.000 = £827. 6. 10. 8
500.000 = 45. 19. 3. 4
70.000 = 6. 8. 8. 0
1.000 = 1. 10. 1
1.000 = 1. 1. 3
70 = 1. 1. 9
1 = 1

£879.17.11.00
\$9,561.926

Every care has been taken in compiling these
Tables to insure their accuracy and even as the
book was being printed the last impression of
each sheet was taken and carefully rechecked
by two separate persons and any little errors
in reading which will crop up in such works
as these are carefully corrected in each copy
before it is issued, thus making it a most
accurate and useful book. Price for this and
the previous volume, 5/6 per copy.

Hongkong, 30th April, 1902.

Mails.

U.S. MAIL LINES.

PACIFIC MAIL S.S. CO., OCCIDENTAL & ORIENTAL S.S. CO.,
TOYO KISEN KAISHA.

TAKING CARGO AND PASSENGERS TO JAPAN, THE UNITED STATES, MEXICO,
(CENTRAL AND SOUTH AMERICA AND EUROPE).

PROPOSED SAILINGS FROM HONGKONG.

"GAELIC".....WEDNESDAY, 30th July, at Noon.
"HONGKONG MARU".....WEDNESDAY, 6th Aug., at Daylight.
"CHINA".....THURSDAY, 14th August, at Noon.
"DORIC".....FRIDAY, 22nd August, at Noon.
"NIPPON MARU".....SATURDAY, 30th August, at Noon.
"PERU".....TUESDAY, 9th September, at Noon.

THE O. & O. Company's Steamship "GAELIC" will be despatched for SAN FRAN-
CISCO, via SHANGHAI, NAGASAKI, KOBE, INLAND SEA, YOKOHAMA and
HONOLULU, TO-MORROW, the 30th instant, at Noon, taking Freight for Japan,
the United States, and Europe. Passengers are allowed to break their journey at any point
en route.

Through Passage Tickets granted to England, France and Germany by all trans-Atlantic
lines of Steamers, and to the principal cities of the United States or Canada.

Passengers holding through ORDERS TO EUROPE have the choice of the Overland
Rail Routes from San Francisco, including the SOUTHERN PACIFIC, CENTRAL PACIFIC,
UNION PACIFIC, DENVER and RIO GRANDE, and NORTHERN PACIFIC RAIL-
WAY; also the CANADIAN PACIFIC RAILWAY on payment of 2/4 in addition to the
regular tariff rate.

Passengers holding Orders for OVERLAND CITIES in the United States have between
SAN FRANCISCO and CHICAGO, the option of the SOUTHERN PACIFIC, CENTRAL
PACIFIC, UNION PACIFIC, DENVER and RIO GRANDE, and other direct connecting
Railways, and from Chicago to destination the choice of direct lines.

Special rates (First-class only) to European Ports, are granted to Missionaries, Members
of the Naval, Military, Diplomatic and Consular Services, and European Civil Service Officials
located in Asia, and to European Officials in the Service of the Governments of China and
Japan.

TO UNITED STATES AND CANADIAN PORTS, Special rates (first class only) are
conferred and will apply only to Missionaries, Members of the Naval and Military Services,
and to Consular and Diplomatic Officials of the Governments of China and Japan.

Return Passage.—Reduction will be made to passengers who do not hold return tickets,
making the return journey between ports in the Orient and Honolulu or beyond, within twelve
months.

Through Bills of Lading issued for transportation to Yokohama and other Japan Ports,
to San Francisco, to Atlantic and Inland Cities of the United States, via Overland Railway,
to Havana, Trinidad, and Demerara, and to ports in Mexico, Central and South America, by
the Companies and connecting Steamers.

Freight will be received on board until 4 P.M. the day previous to sailing. Parcel Packages
will be received at the Office until 5 P.M. same day; all Parcel Packages should be marked to
address in full; value of same is required.

Consular Invoices to accompany each shipment of Cargo or parcel (valued at \$100. Gold
or over) destined to Ports, beyond San Francisco, in the United States, should be sent to the
Company's Office addressed to the Collector of Customs at San Francisco.

Merchant's Invoice will be sufficient for cargo or parcel (each shipment) when the value
is less than \$100. U.S. Gold.

For further information as to Passage and Freight, apply to the Agency of the Com-
panies, Queen's Buildings.

J. S. VAN BUREN,
Agent.

Hongkong, 29th July, 1902.

CANADIAN PACIFIC RAILWAY COY.'S
ROYAL MAIL STEAMSHIP LINE.

SAFETY. SPEED. PUNCTUALITY.
THE FAST ROUTE BETWEEN CHINA, JAPAN AND EUROPE, VIA CANADA
AND THE UNITED STATES.

(CALLING AT SHANGHAI, NAGASAKI, KOBE, YOKOHAMA & VICTORIA, B.C.)
Twin Screw Steamships—6,000 Tons—10,000 Horse Power—Speed 19 Knots.

PROPOSED SAILINGS FROM HONGKONG.

R.M.S. EMPRESS OF CHINA.....Comdr. R. Archibald, R.N.R. WEDNESDAY, 6th Aug.
"EMPRESS OF INDIA".....Comdr. O. P. Marshall, R.N.R. WEDNESDAY, 27th Aug.
"TARTAR".....Comdr. E. Beetham, R.N.R. WEDNESDAY, 10th Sept.
"EMPRESS OF JAPAN".....Comdr. H. Pybus, R.N.R. WEDNESDAY, 24th Sept.
"ATHENIAN".....Comdr. H. Mowatt.....WEDNESDAY, 8th Oct.

THE magnificent Twin-screw Steamships of this Line pass through the famous INLAND
SEA OF JAPAN, and usually make the voyage YOKOHAMA TO VANCOUVER
(B.C.) in 12 DAYS, saving THREE DAYS TO A WEEK in the Trans-Pacific journey, and
make connection at Vancouver with the PALATIAL OVERLAND TRAINS of the
CANADIAN PACIFIC RAILWAY which leave daily, and cross the Continent FROM
THE PACIFIC TO THE ATLANTIC WITHOUT CHANGE. Close connection is made
at Montreal, Quebec, Halifax, New York and Boston with all Trans-Atlantic Lines, which
passengers to Great Britain and the Continent are given choice of.

Passengers Booked through to all principal points and AROUND THE WORLD.
Return tickets to various points at reduced rates, Good for 4, 6, 9 and 12 months.

SPECIAL RATES (First class only) granted to Missionaries, Members of the Naval,
Military, Diplomatic and Civil Services, and to European Officials in the Service of China and
Japan.

The attractive features of the Company's route embrace its PALATIAL STEAMSHIPS,
(second to none in the World), the LUXURIANCE OF ITS TRANS-CONTINENTAL
TRAINS (the Company having received the highest award for same at recent Chicago World's
Exhibition), and the diversity of MAGNIFICENT MOUNTAIN AND LAKE SCENERY
through which the Railway passes.

THE DINING CARS AND MOUNTAIN HOTELS of this route are owned and operated
by the Company, and their appointments and Cuisine are unequalled.

For further information, Maps, Guide Books, Rates of Passage, &c., apply to

CHINESE IMPERIAL SEALS.

SEIZED BY CUSTOMS OFFICIALS.

The *San Francisco Chronicle* of the 19th June contains the following item of news:—

Five imperial jade seals of the Chinese Imperial Government and twelve jade sacred tablets from the imperial temple in Peking were seized yesterday by the customs officers at the transport dock. The seals and ten of the tablets were part of the baggage of First Lieutenant John B. Schoeffel, of the Ninth Infantry, and the other two tablets were in the possession of A. Hesse, who returned on the transport *Sheridan*. The seizure is regarded by the local customs officials as one of the most important in the history of this port. It was evidently the intention of both Schoeffel and Hesse to get the jade through the Custom-house without discovery, for it was not on the manifest of the ships nor declared as part of the baggage.

Lieutenant Schoeffel returned on the *Hancock*. He was with his company, M of the Ninth Infantry, and took part in the advance on and capture of Peking by the allied forces in 1900. That campaign was memorable for the

TREMENDOUS AMOUNT OF LOOT

seized by the officers and men of the allied forces, although it was the general impression at the time that the Americans had not been as eager and persistent in their looting as the others. Schoeffel says that he purchased the jade seals and tablets from a Chinese, who sold them to him for \$50. The Chinese was very mysterious in his actions and anxious to sell. He had packed it away in the same box that it was seized in yesterday, taking it to Manila, where it remained for about two years. When seized, the Lieutenant was apparently the most unconcerned man in the crowd about the baggage. He allowed it to be taken away without a protest and went on directing the examination and transfer of the company baggage.

The seizure was made by Inspector Victor J. Lindquist. Although all baggage from the Philippines is given a close examination, the customs inspectors were quietly given the tip to pay special attention to the baggage of the Ninth Infantry, for it was thought a great deal of loot would be found that came from China. The Chinese Government has offered large rewards for the recovery of certain articles which disappeared during the foreign occupation of Peking, and for these articles foreign governments had been asked to watch.

MOST IMPORTANT TABLETS.

The sacred tablets from the imperial temple were considered the most important. Each tablet is a history of the reign of one emperor and is of enormous value, both from point of age and sentiment, as they have never been duplicated. Both the tablets and the seals are of the purest jade, flawless and highly polished. The carving is evidently the work of an artist. The seals are heavy, about five inches square and two inches thick, and have elaborate handles in the form of dragons with five toes, which indicates that they belong to the imperial family. The tablets are about one foot long by four in width and half an inch thick. The seals have fine silk cords of yellow attached to them, and the tablets are protected by silk mats of yellow, another evidence of their imperial character.

The jade was taken to the office of Deputy Surveyor St. John, who placed it in safe keeping pending a decision of the Treasury Department, which will be notified by the Collector of the Port. It will probably be returned to Peking.

MODERN DRAMA IN THE ORIENT.

A *San Francisco Journal* has the following item:—The Manila invasion has extended to the theatrical profession. Arrangements have been closed for a company which James Neill of the Neill Company will organize to open the Paz Theatre in Manila on September 15th. This is the first dramatic organization to undertake the long and uncertain trip across the waters to the Philippines, but it means a great deal both to Manila and the dramatic profession in this country.

The new company will be known as the Neill Special Stock Company, its selection will be entirely in Mr. Neill's hands. He will give it the best of his repertoire of plays and supply it with scenery. A sum close to \$20,000 will be expended.

EQUIPPING THE COMPANY.

The present Neill Company will be retained intact, as Neill has important contracts for the coming year. It is a peculiar coincidence that the Neill Company will open its fall season at Portland on September 15th, the Barbara Filichie Company will open at San Jose on the same date and the special company is booked to open in Manila on September 15th.

The arrangements have been made by William M. Milne, manager of the Paz Theatre, who arrived in San Francisco about three weeks ago. He approached Neill at once, and that gentleman took the matter under advisement. Milne is a theatrical man of experience, and believes that there is a large opening for some American repertoire company in Manila. He says that there are about 8,000 Americans in Manila, with perhaps half that number within easy distance of the city, and that all are hungry for some form of amusement.

The company will sail from San Francisco about the middle of August. A twelve weeks' stay will be made in Manila, and then four weeks between Hongkong and Singapore, followed by eight more weeks in Manila. Neill is planning to make the trip with his own company the following season.

G. GIRAULT, GENERAL GROCERIES, PROVISIONS AND BAKERY.

THE OVERLAND TO INDIA.

Securely established as British interests now are in Egypt, there can be no question that the overland route to India should, and will, start from Alexandria, following the Egyptian railways through Cairo and Ismailia, and the remodelled narrow gauge-line up to the neighbourhood of El Kantajah (where the caravan route to Syria crosses the Suez Canal). There it will cross the Suez Canal, and strike across the desert of El Till to El Arish, the Ottoman frontier at the Brook of Egypt. Thence it would follow generally the 31st parallel of north latitude till Naserie, on the Euphrates, 700 miles from El Arish, is reached. From Naserie to Bassorah, the old Euphrates Valley route could be followed, and a valuable branch built to Koweit, as originally proposed. The crossing of the Shat-el-Arab at Bassorah and of the various big rivers in the 76 miles between that and the Persian frontier at Mohammerah, and the 50 miles beyond to Dorak, would involve heavy and expensive bridging. The line through S. al-Bahri Persia and Baluchistan to Karachi, whether a coast route or one further inland is followed, would generally be heavy and expensive from the engineering point of view. The distances would probably be 1,500 miles from the Turko-Persian frontier to Karachi. The cost of this line should, however, be covered by some 10,000,000, a mile, or a total of 15,000,000, the remaining 1,000 miles or so would add five millions. The overland journey of some 2,500 miles from Alexandria to Karachi, even if the speed of travel did not exceed 30 miles an hour, could be covered in a little over 33 days, and the sea journey from England 64 days. Ten days should land troops in India from London by practically an all-British route. Karachi is about 450 miles from Quetta, 800 miles from Bombay, and 1,500 miles from Calcutta by railway. By the present all-sea route, via Gibraltar and Suez Canal, Karachi could not be reached under 16 days at the quickest. It is clear that a saving of some 38 per cent in the time of transit from London to the Afghan frontier might, under certain contingencies, become of vital importance. The raising of the 20 millions required could, and would, be considerably facilitated by an Egyptian and Ottoman, Persian and Baluchistan guarantee, secured on the tithes of the provinces crossed by the line. This could be limited, as in the case of the Anatolian Railways, to a sum not exceeding, say, 300,000 a mile a year, to cover the interest at 3 per cent on a capital. The circumstance of the British and Indian Governments being co-interested in the line would insure the requisite capital being raised at a rate not exceeding 3½ per cent.

THE RISKS OF AN INVASION OF ENGLAND.

A GERMAN VIEW.

The author of an article in the *Marine Rundschau*, of Berlin, discusses a hypothetical scheme of invasion of England on the basis of landing 100,000 men, which would take 100 transports making on an average only twelve knots an hour, and extending, if grouped in four columns, over a length of five knots. The writer discounts the possibility of success. Even if such a convoked fleet got through a hostile attack, (he says) it could only be at the cost of heavy loss, which would much weaken it and, in any case, it would be practically impossible to blockade the whole English coast from the Thames to Plymouth, by which alone the operations of the transports could be secured from grave danger. Besides, Great Britain could easily bring up a fleet from another station if the one in the Channel were worsted.

Finally the author assumes that the fleet has managed to

SLIP THROUGH THE ENEMY

and begin unopposed the landing. Suppose it were safely effected, despite simultaneous opposition from land and sea? What then?

"At a time when England had 15,000,000 inhabitants (the writer says), and an Army of relatively far less importance than now, Napoleon considered 100,000 men necessary for a war of invasion of England. Nowadays no higher total can be taken into consideration if the troops are to be shipped to England with a simultaneous landing, and whether with such a number, even if enjoying an absolutely unimpeded landing, it would be possible to break British resistance is more than doubtful.

Judgments over the capability of the British may differ, but not every one is inclined to unthinkingly endorse what a large part of the French and even of the German Press has uttered on the subject. But even if suppositions of the kind that an invading army would only have to reckon with six divisions and three cavalry brigades of the English regular Army, and with Volunteer and Yeomahy formations of small fighting value, do not rest on a considerably depreciated estimate of

BRITISH POWER OF DEFENCE has not one to count on the opposition of a nation of forty million of people, a nation which in history, and even in history of most recent date, has given sufficient proof of the endurance with which it sustains the interest of the State and the policy of its leaders."

The 100,000 men, the writer concludes, would be in the necessity of meeting a crushingly superior force and of living on the land, a land which even in peace, produces so little, for they could not attempt to keep open their communications. Hence they would soon be driven to act on the defensive.

It is learned from Berlin that the article, which is written in no anti-English spirit, is from the pen of a very capable young German officer, and represents the opinion of nearly all German Naval officers.

ST. JOSEPH'S COLLEGE, HONGKONG.

OWING to the insufficiency of accommodation in the present building and the increasing demand for admission, it has been found necessary to extend the wings of the main building and to enlarge the Chinese department by an additional story with two wings. The estimated cost will amount to over \$15,000. To cover these expenses we appeal to the liberality of all friends of Education. The establishment has been in existence for the last 25 years and is open to all classes. Much of the clerical work of the city is carried on by its past pupils. As this is the first time we have applied for assistance we expect a generous response. The names of our most liberal Benefactors will be inscribed upon marble tablets, as a lasting testimony of their generosity.

HONGKONG, TUESDAY, JULY 29, 1902.

NOTES AND COMMENTS.

The Dock Co.'s Proposal.

It was three weeks ago that we gave expression in these columns to the views of a large number of shareholders in the Hongkong and Whampoa Dock Co., Ltd., in regard to a proposal under consideration for the building of a new dock at Kowloon in the carrying out of which a large expenditure is expected to be entailed and to provide for which it will be necessary to raise the necessary funds by loan or the issue of debentures. Either of these courses, it will be remembered, does not commend itself to the shareholders, or, as far as is known, to even half the number of the Directors themselves. In relation to the proposal which has already been discussed at some length, the verbatim report of proceedings at the second annual meeting of shareholders in S. C. FARNHAM, BOYD & Co., Ltd., of Shanghai, which was reproduced in our issue last night, will have been read by the shareholders of the local Dock Co. with some interest. We allude especially to that portion of the proceedings having reference to the proposal for a reduction of the increased capital of Messrs. FARNHAM, BOYD, Mr. C. HOLLIDAY, who appears to have acted the role of spokesman for the other shareholders, remarked that something under a year ago the Directorate proposed the issue of new shares, to which the shareholders agreed. They then went further and said that as the prospects were so good, the new shares ought to be issued to shareholders at 125 per cent. premium. The shareholders agreed to that also, and accordingly the capital was increased by the issue of 6,000 new shares, the sale of the new issue realizing \$1,552,500. It has evidently been found that, consequent upon a slackness in business, the increased capital was too great for the earning powers of the Company to pay a dividend satisfactory to some, if not all, of the shareholders. The Directorate now put forward a scheme for the reduction of the capital which is to be effected not at 125 per cent. premium, but at par. That is to say, the \$1,552,500 for which \$1,250,000 was paid by shareholders are to be called in, and in exchange shares worth 75 per cent. are to be given in addition to a certificate of a value of \$1,250,000 bearing interest at 7 per cent. per annum. The effect of this operation would seem to be that shareholders stand to suffer a loss of \$1,250,000 for every share held by them.

The analogous condition of the business of S. C. FARNHAM, BOYD & Co. and the Hongkong and Whampoa Dock Company is sufficiently striking to convince one that the local concern should endeavour to profit by the experience, with the resulting prospective loss to shareholders, of the Shanghai Company. A conviction is held that any increase in the capital of the Hongkong Dock Company with the present poor outlook for a revival of briskness in the docking and shipbuilding industry will be found rather more burdensome than advantageous to the real interests of the Company. Saddled with a larger capital it means that the profits must likewise increase in the same ratio in order to maintain the payment of the same steady dividends which investors invariably look forward to in a sound, first class industrial undertaking. In the opinion of those most concerned it is deemed extremely doubtful that any increased capital will bring in the same measure of return which its sanguine promoters so hopefully anticipate.

Red Tape or Humbug!

For some unexplained reason, the education authorities of Hongkong have considered it inadvisable to avail themselves of the generous offer recently made by the local branch of the Navy League, to award the sum of \$40 to each school, where English is taught, for the best essay on Naval subjects. It would appear that the object of the League, apart from encouraging the rising generation in their studies, was for purposes of enlightenment, and to incite in them some of that patriotism which has been so conducive to the present standing of the British Empire. It is an undisputed fact that England relies for protection and position more on her Navy than on any other of her great forces, and to instil into these young minds facts with which some of the scholars would have shown themselves to be unacquainted, would be forging another link in the chain which binds Great Britain and her Colonies so closely together. But those in authority evidently see fit to ignore the offer, and by so doing lay themselves out to very severe criticism and condemnation on the part of the community. After fifty years of British rule, it is time that the Colony possessed an institution to which a parent could send his son to acquire some little knowledge of how Britannia rules the waves. If not, then let Hongkong be the

exception, and continue training the minds of the youngsters to the belief that the object of life is the struggle for the dollar; that sentiment and patriotism can be cast aside; and that the love which has elevated us to our present honoured and respected position amongst the nations can be thrown to the winds.

LOCAL AND GENERAL.

GYMKHANA.—The Officers of the Kowloon Garrison are holding a Gymkhana in Happy Valley on Thursday next.

POSTPONEMENT.—Owing to the inclemency of the weather, the departure of the s.s. *Gaelic* for San Francisco, etc., has been postponed until to-morrow at noon.

MUSIC FOR THE PEOPLE.—There will not be any band performance on the New Parade Ground on Wednesday next, 30th inst., owing to that date having been fixed for the opening of the King's Park.

THE OPERATION ON THE KING.—A cable to American papers from London states that the daughter of Sir Frederick Treves, the surgeon who performed the operation on King Edward, died a few days before the operation on the King, of appendicitis.

CHINESE AND TIENTSIN.—We have some ground for suspecting that when the City is given back, the Chinese are to have a pretty free hand to deal with the various concessions and franchises that have been granted during the term of the T. P. G. The number and importance of these have been much exaggerated, and we confess we shall be surprised if the Chinese do not at once appropriate them on their merits.—*Peking and Tientsin Times.*

EQUIPPING SOLDIERS IN AMOY.—General Soo, the commander-in-chief of the Imperial forces in the district of Amoy, has received from the Provincial arsenal 200 rifles, 20,000 cart ridges, 4 bugles and 2 drums for the equipment of the soldiers under his command—not to speak of bird cages and umbrellas, which the men have to provide for themselves. The valiant braves, however, are to be supplied with new summer uniforms at Government expense.

THE VOLCANO KILAUEA, on Hawaii, is again active, according to a report received at Honolulu on June 3rd. Flames and some smoke are rising above the crater. The outbreak occurred on June 3rd. Up to the time of the last reports it was continuing. The outbreak had been foreshadowed for many days. No eruptions of lava or ashes had taken place. This is the first time Kilauea has made such a demonstration for about ten years, although there have been eruptions from Mauna Loa.

THE NEW STAG HOTEL.—On the occasion of the re-opening of the new and extensive premises of the Stag Hotel, which has just been rebuilt after a unique existence in the Colony of 45 years—it having been established in 1857—the band of the 22nd Bombay Infantry by kind permission of Lt.-Col. R. Dalziel and Officers will play at the Hotel to-morrow, the 30th inst., from 6 to 8 p.m.

PROGRAMME:

1. March "A Frigate" COSTA.
2. Overture "Händel's Sticks" SORRE.
3. Valse "Sole Las Olas" ROSAS.
4. Selection "San Toy" JOHNS.
5. Song "Love's old sweet song" MELLOV.
6. Selection "A Runaway Girl" KAPPEV.
God save the King.

LIME.—Although it is not difficult to prepare good lime, it appears that much of that used in Hongkong has been so much exposed to atmospheric conditions as to be greatly impaired for building purposes. Samples of lime, mortar, cement, and red earth have been sent to Mr. Frank Browne, Government Analyst, for analysis. The analysis showed the material to be derived from granite, of which some of the constituents had been removed in the process of weathering. Viewed under the microscope the earth was seen to be almost entirely in sharp crystals. Such red earth if used instead of sand for mixing with lime would form a strong and durable mortar.

OVERCROWDING OF PRISONERS is still a serious question, says the Principal Civil Medical Officer in his annual report. Four and even five men have at times to be put in the same cell, thus reducing the space for each to some 250 cubic feet, whereas the Public Health Ordinance, 13 of 1901, requires that the individual allotted space should be of 400 cubic feet. The temporary hospital is also at times overcrowded. The officers' quarters which were altered and fitted up some two years ago for the Gaol Hospital is yet unavailable for the prisoners, being still occupied by the Indian Gaol Staff. The present temporary hospital is most inadequate, offering no proper accommodation or facilities for the treatment of patients.

THE FOOD AND DRUGS ORDINANCE.—Thirty-seven exhibits were examined at the Government Laboratory last year. The following table shows the results of the examination of 32 samples taken for the purpose of analysis by the Police and by the Sanitary Board:

Description	No. of Samples	No. found Genuine	No. found Adulterated
Beer	10	10	0
Brandy	3	3	0
Tea	2	2	0
Milk	8	5	3
Bread	2	2	0
Coffee	1	1	0
Whisky	6	6	0

A number of various kinds of food were examined for the public at the specially low fees laid down in the Ordinance and the result of the systematic method of taking samples by the Police has been that the sale of adulterated liquor has practically ceased in the Colony.

COTTAM & CO. FOR SUN HATS.

NAPLES OUTRAGE.—The man Guerrero, who threw stones at the royal train at Naples lately, now openly declares himself to be an Anarchist, telling the President that he does not want a defending counsel, and that the tribunal may deal with him as it pleases.

ADVANCE IN PROPERTY.—As showing the advance made in the value of property in China, it is pointed out that in the Panshan district land which could have been bought three years ago for Tls. 400 per mu, is now realising Tls. 1,750 to Tls. 1,800 per mu.

"BRAVO, BOUS!" cried a boy to Lord Roberts, as he went to inspect the Indian camp the other day. Much amused the Commander-in-Chief stopped. "Thank you, sir," he said to the boy who had greeted him, and, greatly to the delight of the group of lads, he shook hands with them all.

ROUND THE WORLD.—On Nov. 12 a "round the world tour" is to start, to be carried out by Messrs. Gaze. The time allotted is 200 days and the cost 380 guineas. France, Switzerland, Italy, Egypt, the Delhi Durbar, Ceylon, the Straits, China and Japan, and home across the Pacific and America is the itinerary.

BLUE ROSE AT KEW.—A botanical curiosity has just been landed at Liverpool from America, and has been taken to Kew Gardens for safe keeping. This is a perfect blue rose, which a head gardener in the States named McDonald has succeeded in bringing to perfection after long experimenting. He intends to exhibit it in England.

INCONVENIENT.—The greatest inconvenience of living in British New Guinea is the possibility of waking up some fine morning and finding your skull missing. The Papuans are incorrigible head-hunters, and their natural tastes in this direction have been intensified by the discovery that there is a profitable market for human skulls in London.—*Exchange.*

EGYPTIAN COTTON THREATENED.—The cotton industry of Egypt is seriously threatened by a disease which is attacking the plant, according to the president of the syndicate of agriculturists, who is the discoverer of the new pest. The area attacked by this scourge is rapidly extending, and it looks as though the whole cotton crop of Egypt will be involved.

IN AN ICE PACK.—The steamer *Nome City*, from Nome, reports that the steamer, *Portland*, of the Northern Commercial Company's fleet, got caught on the 4th ult. in an ice pack, and when the *Nome City* left was being slowly carried up Behring Straits to the Arctic Ocean. The revenue cutter, *Thetis*, has gone to the rescue. The *Portland* has 100 passengers on board.

THE V. C. OR A BULLET.—Many causes have conspired to produce the excessive loss of officers on the field. There seems but little room for doubt, however, that many young lives were thrown away in the mad race for the Victoria Cross, a decoration which, although instituted as a reward for valour, has too often acted as an incentive to reckless daring. All honour to the brave lads! but one is sorry.—*Hospital.*

WESTERNISING.—A meeting of Chinese students in Tokyo is reported to have been notable for the spirit which moved the speakers, who spoke in Japanese. Some of the students had cut off their queues and were dressed in the latest Parisian fashions. The Chinese girls who attended were dressed like Japanese schoolgirls, and even their coiffures were done in imitation of the elaborate head-dress of the Japanese.

MORE FORUM FINDS.—In the primitive necropolis, close to the Temple of Antonius and Faustina, in the Roman Forum, has now been discovered a tomb for interment, hard by the cremating tomb brought to light last April. The tomb is of red tuffaceous, and contains three terra-cotta vases, and a skull is also visible. The anthropological characteristics of the Romans of Romulus's day will thus no longer remain a secret.

A LOST ART REDISCOVERED.—The art of making malleable glass, which is said to have been well understood by the Egyptians, but which has been for centuries lost, has been rediscovered by Louis Kauffeld, of Richmond, Ind. Mr. Kauffeld is a lamp chimney maker, and has for years tried to devise a chimney that would withstand excessive heat. The new process, it is stated, renders possible the making of cooking vessels out of glass.

PATENT PAPER LEATHERS.—Man, from his bowler to his boots, will be papered in the future. Paper teeth would appear quite impracticable, yet actual use has proved them equal to those made of porcelain. Another interesting use of modern ingenuity has found for paper is to manufacture foot-gear from it. So skillfully can it be prepared that in appearance it is almost identical with that of patent leather. It is, however, considerably lighter, and so thin that it apparently reduces the wearer's feet a couple of sizes or more.—*Fiber Maker.*

THE MATCH TRADE OF KOBE.—During last month 30,653 cases of matches, valued at ¥564,298, were exported from Kobe. Compared with the corresponding month of last year, this shows an increase of 438 cases, but a decrease of 3,251 cases compared with the figures for May last. The decrease last month is attributed to the bad market for matches in North China, due to the decline of silver, and also to the scarcity of vessels which will convey such goods. Some shipments were made to Victoria and Vancouver last month for the first time in the history of the trade.

COTTAM & CO. FOR WASHING BOW TIES.

BUBONIC PLAGUE caused the death of two Chinese during the day ended at noon today. This makes 502 cases since the beginning of the year.

NAVAL CADETS.—The Civil Service Commissioners state that a revised scheme of examination for the entry of naval cadets will come into operation at the competition to be held in March, 1904.

TOURNAMENT FOR THE MARTINIQUE SUFFERERS.—The great military festival which was organised by the Belgian army for the benefit of the Martinique sufferers took place recently and was a brilliant success. Large sums were collected.

GOLD RESERVE IN THE BANK OF JAPAN.—The reserve of gold in the Bank of Japan has continued to increase since January last. The amount on the 31st inst. stood at ¥77,500,000, which is expected to be increased to ¥80,000,000 before long.

THE ATLANTIC SHIPPING TRUST.—One of the first effects of the Atlantic shipping trust has been to hit the French Atlantic trade. The Compagnie Générale Transatlantique makes the formation of the trust an excuse for asking for Government aid for French shipping. The trust is hardly responsible for last year's bad working of the Transatlantique, but it is a good enough excuse for the moment. But an industry that has to appeal to its Government for support must be in a bad way. Artificial aids to commerce are delusive, and, as the *Steele* pertinently remarks, a French Minister can no more prevent English, Americans, and Germans from forming a great navigation company than the Emperor of China could. If the French shipowners are to get their fair share of the carrying trade they must win it by commercial competition; a spoon-fed industry cannot become strong, says the *P. M. G.*

THE GERMAN NAVAL BUDGET for the year 1902 provides for a total expenditure of about £10,500,000, whereof some five and a half millions will be for new construction and repairs. No less than nine ironclads are under construction, without including the "Kaiser-Karl-der-Grosse," approaching completion, and the "Kaiser-Barbarossa," which is practically finished. The battleships will be of two types, of 11,000 tons and 13,000 tons displacement respectively. Of the larger type, two not yet named were laid down in 1901. For each of these a vote of £282,300 is to be taken. Upon the other two, one of which will be built at Wilhelmshaven, only a small sum will be spent. The total cost of a 13,000 ton battleship is estimated at about £1,243,000, and they will carry four guns of 11-in calibre of a new type, expected to fire two shots in three minutes; eighteen 7-in quickfiring; twenty-four smaller guns and six torpedo tubes. The speed is to be 19 knots.

KING'S PARK.

OPENING CEREMONY POSTPONED.

On account of the unfavourable weather, the opening of the King's Park has been postponed till Saturday next, the 2nd August.

ARRIVAL OF THE FRENCH MAIL.

The French mail steamer *Polyneste* arrived shortly after three o'clock this afternoon. She was 34 hours late, and has experienced an exceptionally bad weather passage. Her mail from Europe was landed at 3:40 p.m.

THE STORMY WEATHER.

EFFECT ON SHIPPING.

Since Sunday evening, when the continuous rain commenced, the harbour has presented a very dismal appearance, and the several typhoon warnings combined with the miserable drizzle drove many of the more cautious and smaller craft to refuge. Though we have missed the full force of the typhoon and the consequent damage, the bad weather has considerably affected commerce. Many steamers have been delayed in waiting for favourable weather reports, while others have arrived long after time.

The sailings of the following vessels have been postponed:—
O. and O. s.s. *Gaelic* for San Francisco until to-morrow at noon.

The s.s. *Savila* will leave for Nagasaki and Vladivostok at noon on the 31st inst. instead of the 30th.

The s.s. *Siletia*, for Havre and Hamburg, is billed to leave on August 1st instead of July 30th.

N. Y. K. *Tosa-maru's* departure for Victoria, B. C. and Seattle, via Japan, is further postponed until Thursday, 31st inst. at daylight.

The French mail *Annam* was a day late with mails for Europe, leaving port this afternoon.

SHIPPING AND MAIL NEWS.

MAILS DUE.

Canadian (*Empress of China*) to-morrow.
English (*Chusan*) 1st prox.
American (*China*) 5th prox.
German (*König Albert*) 5th prox.
German (*Kaiserin*) 6th prox.
American (*Doric*) 16th prox.
American (*Nippon Maru*) 21st prox.

The N. P. S. Co.'s steamer *Tacoma* from Yokohama for Hongkong on the 28th inst.

The N. Y. K. Co.'s steamer *Kagoshima Maru* (Bombay Line) left Bombay for Colombo and Singapore, for this port on the 28th inst. 7 p.m., and is expected to arrive here on the 14th prox.

THE NEW FRENCH REMEDY.

THERAPION.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1, in a few days only, removes all discharges from the urinary organs, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-tried remedies have been powerless.

THERAPION No. 2, for impurity of the blood, scurvy, pimples, spots, blotches, pains and swellings of the joints, secondary symptoms, disease of the bones, sore throat, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3, for nervous exhaustion, waste of vitality, and all the distressing consequences arising from early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION may be procured of the principal Chemists and Merchants throughout the world. Price in England 2/6 and 4/6. In ordering, the purchaser should state which of the three numbers he requires, and observe that the word "THERAPION" appears on the Government Stamp (in white letters on a red ground) affixed to every genuine package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

Sold by A. E. WATSON & Co., Limited, Hongkong, China and Manila.

GOVERNMENT GENERAL OF FRENCH INDO-CHINA.

HANOI EXPOSITION

WILL BE OPENED ON 3rd NOVEMBER, 1902.

THE Exposition, which is situated close to the Railway Terminus at Hanoi, will comprise a GRAND PALACE and MAGNIFICENT BUILDINGS, containing Artistic, Commercial, Agricultural and Industrial Productions of the greatest variety from France and her Colonies (1st section); French Indo-China (2nd section); and the countries of the Far East—China, Japan, Philippines, Siam, Netherlands India, British India, Straits Settlements, Burma, &c. (3rd section).

The WEATHER in TONKIN during the months of November, December, January, and February, is mild and invigorating and may be compared to a winter at Nice.

The GALLERY OF FINE ARTS will contain more than 500 Pictures, and will be organised under the Direction of the Inspection-General of Fine Arts of Paris.

SPECIAL EXCURSIONS by Railways and Steamers to the chief Places of Interest in Indo-China (Cochin-China, Tonkin, Laos, Cambodia, Annam) will be organised at reasonable prices.

ATTRACTIONS OF ALL KINDS: Military Bands, Theatricals, Circuses, Concerts, Aquatic Sports, Balloon Ascensions, Fireworks, Dances, &c., will be provided.

REDUCED PRICES will be charged by all Steamship Lines running to Haiphong, from whence Hanoi may be reached in a few hours by Railway or Steamer.

NUMEROUS First-Class HOTELS and CAFES assure every accommodation to visitors at moderate prices.

For FURTHER INFORMATION apply to the French Consulates in the Far East.

P. THOME, Commissaire-General de l'Exposition de Hanoi.

Gentlemen's Shirts made to order, and Cuffs and Collars renewed on old ones.

Ladies and Children's Under-clothing Children's Dresses, and all kinds of Embroidery. Materials can be supplied, if required.

The Superioress will also be most grateful for any PAPER, or old ENVELOPES to be made into Books for the Children of the Poor Schools, who are taught by the Sisters.

Hongkong, 22nd April, 1892.

THE THAMES AND MEDWAY DEFENCES.

A test mobilization, by which is understood the placing of an offensive or defensive military unit on a war footing for a stated period, of an extremely interesting character, of certain of the Thames and Medway defences, has been made. The precise defences in question are those of Sheerness, the Isle of Grain, and the Medway Boom. The experiments included the testing of the efficiency of the electric search-lights at the entrances of the rivers, and on the Burntwick Island and the opposite shore which are included in the Medway boom works. For a period of five days, the defences were manned night and day. The land defences at Sheerness have been strengthened by a party of four hundred non-commissioned officers and men of the 3rd Battalion of the West Yorkshire Regiment, but for some reason no additional infantry have been ordered to the Grain forts or the boom stations. Royal Engineers have charge of the search lights.—*Pall Mall Gazette.*

THE WORD OF HONOUR.

The men who do as they say; the things that prove to be what they were said to be,—how cheering it is to come upon them. We all hate to be deceived; especially when the deception is intentional. But all men are not liars, even if David did say so in his haste. If they were society would be impossible. Everybody knows that business is based on credit, on faith. Millions are bought daily on nothing more solid than the pledged promises of men, not written, merely verbal. The Stock Exchanges are often called nests of gamblers, yet nowhere is a promise held in greater honour. Therefore when we say that the tried and effective modern remedy called "Wampole's Preparation" never deceives any who resort to it in hope of benefit and cure, we may expect to be believed. For this assurance is given on what it has done in the past in countless cases, on its record. It is only recommended to accomplish what it was made to accomplish. Its action in Chlorosis, Anemia, Leucopha, Catarrh, Debility, Throat and Lung Troubles, Blood Impurities, &c. is convincing. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Dr. Austin D. Irvine, of Canada, says: "I have used it in cases where cod liver oil was indicated but could not be taken by the patient, and the results following were very gratifying." It is effective from sensitive and nervous stomachs. It cannot deceive or disappoint you, and comes to the rescue of those who have received no benefit from any other treatment. It stands for the medical triumph of the age. Sold by all chemists here.

A GREAT PHYSICIAN.

Professor Adolf Kussmaul, the eminent physician, died at Heidelberg on May 27th from the effects of an attack of asthma. The deceased was born at Graben, near Karlsruhe, in 1822, and studied at Heidelberg, where he established himself in 1855, and was appointed professor in 1857. Two years later he went to Erlangen as Professor of Internal Medicine. In 1863 he proceeded in a similar capacity to Freiburg, and in 1876 to Strassburg, retiring into private life in 1880, since which time he has been living at Heidelberg. Among his greatest services to medical science was the introduction of the stomach pump and the operation known as thoracocentesis (puncturing the thorax). The deceased was an active contributor to medical journals, and published several important works including one on epilepsy, which greatly promoted the study of that disease.

GAMES IN GREAT VARIETY.

DRESSMAKING DEPARTMENT.

This section of our business is a new venture and has met with extraordinary success during the past 9 months.

All work cut and supervised by our dressmaker who, having had High Class Colonial and Home experience has attained the knowledge required to connect Style and Fashion with comfort in creating suitable toilets for Eastern wear.

We intend making this department a specialty and ladies will do well to give us a trial.

Our London and Parisienne buyers have Instructions to keep us up to date and supplied with all the latest and most Fashionable Goods so that our patrons may be assured of procuring everything of the newest and best.

Ball Dresses, Bridal Gowns, Afternoon Costumes. Mourning orders executed at shortest possible Notice.

Space will not allow us to quote the thousands of articles stocked in this establishment, but two words will convey all that is necessary, viz., GENERAL STORE. Do not fail to enquire for ANYTHING you may want.

July 16th.

R. G. HECKFORD
